

Horse Showing: The Day of the Show

- On horse show day, it is important that you arrive at the barn by time given to you by staff.
- Horse trimmed, bathed, and all equipment clean – a lot of this can be done the day before.
- Tack should be clean and conditioned – you will need a clean show pad.
- Any polos or boots should be subtle and approved by staff.
- Learn what ring you are showing in and check with back gate as to time. If possible, watch a few rounds if you are showing over fences.
- Give yourself extra time to have your horse and yourself ready!
- Parents, please stay out of the back-gate area. It can get very congested and dangerous. We also want your child focused on what they are doing. No friends or other family members allowed in the back-gate area. Your child will meet you outside the gate area when they are finished. If you are grooming for your child, once they are clean and ready, please step away.
